

KAJAL

Java Developer — Frontend Developer — Full-Stack Developer

✉ kpals3249@gmail.com ☎ +91 8076895090 📍 Noida, India
🌐 [LinkedIn](#) 🐙 [GitHub](#) </> [LeetCode](#)

Professional Summary

Motivated and detail-oriented Computer Science graduate (2026) with hands-on internship and project experience building Spring Boot backends, designing RESTful APIs, OTP-based email verification, and integrating React.js frontends. Familiar with Spring MVC, Spring Data JPA/Hibernate, MySQL/PostgreSQL, JWT/OAuth 2.0 security, and Docker containerization. A quick learner who follows clean, testable coding practices and Agile/Scrum workflows, eager to start a career as a Full-Stack/Backend Developer and contribute to real-world systems from day one.

Technical Skills

Languages:	Java, JavaScript, SQL, HTML5, CSS3
Frameworks:	Spring Boot, Spring MVC, Spring Security, Hibernate/JPA, Thymeleaf, React.js, Next.js, Tailwind CSS, Bootstrap
Auth & Security:	JWT, OAuth 2.0, BCrypt, OTP Email Verification (JavaMailSender)
Databases:	PostgreSQL, MySQL, JDBC
Build & DevOps:	Maven, Gradle, Docker, Git, GitHub Actions
Testing & Tools:	JUnit 5, Postman, Swagger
Architecture:	REST API Design, MVC, Microservices, OOP, Agile/Scrum

Experience

HCLTech — Java Web Developer With AI Jan 2025 – Mar 2025
Remote / Noida, India

- Engineered responsive and scalable user interfaces using React.js and modern CSS frameworks, optimizing user engagement metrics.
- Collaborated with cross-functional teams to integrate backend REST APIs seamlessly using Axios for dynamic asynchronous data operations.
- Streamlined application architectures by designing modular, reusable React components to improve code maintainability and team velocity.

Java Developer Intern — Brainwave Matrix Solutions Nov 2024 – Dec 2024
Noida, India

- Architected ATM Simulator & Hospital Management desktop apps using Java Swing/AWT with multi-threading and OOP design patterns (Factory, Singleton); optimized event cycles reducing UI latency.
- Designed SQL relational schemas via JDBC with ACID-compliant transactions and defensive exception-handling, improving code reusability across 2 projects.

Projects

AI-Powered Employee Management System Live Demo • [GitHub Frontend](#) • [GitHub Backend](#)
Java • Spring Boot • Spring MVC • Hibernate/JPA • PostgreSQL • Spring Security • JWT • OAuth 2.0 • JavaMailSender • React.js • Docker • JUnit 5

- Register with OTP email verification — users receive a one-time passcode via JavaMailSender to activate accounts securely before accessing the system.
- Employee List & Add Employee: paginated employee records with full CRUD; Candidate List & Add Candidate with AI-powered resume screening that auto-parses and ranks uploaded resumes.
- Designed 10+ RESTful APIs with Hibernate/JPA persistence; containerized with Docker for one-command deployment; enforced OAuth 2.0 + JWT auth across all protected endpoints.
- Achieved 80%+ JUnit 5 test coverage for core service modules, ensuring correctness and regression safety across releases.

E-Commerce Platform (Full-Stack) [GitHub Frontend](#) • [GitHub Backend](#)
Java • Spring Boot • Spring MVC • Hibernate/JPA • PostgreSQL • JWT • React.js • Tailwind CSS • Maven • Docker

- Designed micro-layered Spring Boot + MVC backend with Hibernate/JPA ORM managing product catalogs, orders, and sessions — supporting 500+ concurrent requests.
- Built responsive React.js + Tailwind CSS storefront with Axios; enforced JWT + BCrypt authentication via Spring Security and configured CORS for seamless frontend-backend sync.
- Applied RESTful API best practices and MVC separation of concerns — controller → service → repository layering.

Quiz App

[Live Demo](#) • [GitHub](#)

React • Tailwind CSS • JavaScript

- Built a fun, interactive multiple-choice quiz application in React with an option to skip unsure questions and review a detailed summary at the end.
- Designed a fully responsive UI with Tailwind CSS, ensuring a smooth experience across desktop and mobile devices.
- Structured reusable React components for question rendering, navigation, and score summary to keep the codebase clean and maintainable.

Education

B.Tech — Computer Science & Engineering <i>KCC Institute of Technology & Management, Greater Noida</i>	Sep 2022 – Jun 2026
Class XII <i>CBSE</i>	2020 – 2021
Class X <i>CBSE</i>	2018 – 2019

Certifications & Achievements

- Java Web Development with AI — HCLTech • 18 March 2025 • NCVET Approved (NQR: NG-4.5-IT-01716-2023-V1-HCL)
- DSA Problem Solving — LeetCode (Ongoing) • 100 - 170+ problems solved
